Finding India in Cambodia

India and Cambodia are same-same but different. **Sandy N Vyjay** discover the many deep-rooted mythological and historical connections between the two nations...

It seems so much like home. That was the thought that ran through our minds as we drove from Phnom Penh International Airport to downtown Phnom Penh. The roads seemed strangely familiar though it was our first visit to Cambodia. It was probably the sight of the ubiquitous symbol of Indian roads, the Bajaj auto-rickshaw that triggered this thought. But it was more than that. The billboards along the streets and the boards of the shops were in a script that triggered the heart strings and reminded one of home. It was, of course, the Khmer script which has an uncanny similarity to scripts of Sanskrit and Telugu languages. The Khmer script is derived from the Pallava script which

Matching customs & beliefs
Our interaction with local Khmer people revealed that there were quite a few simi-
