### HOW TO KEEP YOUR SHOES BOX-FRESH

You couldn't wait to bust out those fresh kicks to match the shining sun, but a few exhibits later, they're, well, not so fresh any more. In fact, they look straight-up terrible after an accidental step in the mud, a blob of ketchup hitting bullseye, your two-LITs-down date digging her heels into them. But before you have a panic attack and rush to buy your next pair, a dedicated shoe cleaning service – Pressto Cobbler – promises to give your leather or canvas pair a good scrubbing down. The service extends to replacing heels and mending leather bags too. You have no excuse for sullied accessories now.
