HOW TO

- Smarter than a hoodie, but more relaxed than a bomber jacket, track jackets are perfect for layering during those brisk spring days. Slide them under an overcoat or layer them over a T-shirt and you're good to go.

- For bonus style points, zip the jacket all the way up and pair it with black Chelsea boots. It'll enhance the outfit without making it look too dressy.

- As a rule of thumb, darker hues like black, navy, burgundy work best. Brighter colours like neon blue or green should be reserved for the gym.
